

Submitter: Michelle Berry  
On Behalf Of:  
Committee: Senate Committee On Finance and Revenue  
Measure, Appointment or Topic: SB1586

We know the devastation in eastern oregon the high demands of water these places need once they use all that up they'll demand more water. Devastating our watersheds, our wildlife, our means of life. Yes I do understand the need for jobs but this is NOT the way. Please say no and oppose this land grab for greed and let our wildlife and ecosystem have a chance! We don't need more AI, data centers or computer building in the area. Especially when they don't pay high enough taxes. Their taxes should be higher to support the community not a little bit saying the jobs and spending is enough. There's no amount of money that can re-establish a normal ecological system they'd be destroying and demanding more and more than we can handle with health risks and destruction of land and natural water systems.
