

Submitter: Nicole Haraden

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB1586

I am respectfully urging you to oppose SB1586. I am a community member who lives and works in this area, and I am deeply concerned about the continued loss of our precious farmland and natural resources to industrial development. We have already seen too much productive agricultural land taken over by large data centers and similar facilities that bring little long-term enrichment or meaningful job creation to our community. These developments place heavy demands on our water and power resources, permanently alter rural landscapes, and threaten the agricultural character that makes our area special.

Please consider standing with local families, farmers, and small communities. We want responsible growth that supports people, protects farmland, and preserves the rural way of life that defines our area.
