

Submitter: Karen Kielas

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB4105

I am a concerned citizen from Eugene, Oregon, submitting testimony to Oppose HB 4105 and its amendments.

This bill would prioritize clearcutting Oregon forests over other critical values such as clean drinking water, clean air, wildlife habitat and outdoor recreation. Our state forests are worth more standing — it is unacceptable to prioritize timber harvest over all the other values these forests offer. We need forests to sustain life, for recreation and health. Our intact natural areas are the envy of the world and are truly what make America great.

This bill would result in more lawsuits and could cost the state millions of dollars.

This bill would also result in more clearcuts and less habitat for vulnerable fish and wildlife. It would lead to less mature and old-growth forests, and less carbon storage on the landscape at a time when climate change is becoming more severe. We have record low snowpack this year and can expect a bad wildfire year. This bill does not represent the public lands vision I want my elected leaders to support.

I urge you to oppose this bill. Instead, I encourage this committee to focus on measures that would protect Oregon legacy forests, safeguard fish and wildlife, and protect communities drinking water for our children and future generation

Please oppose this bill and ensure it does not pass out of committee.

Sincerely,
Karen Kielas
