

Submitter: Kevin Vial

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB1586

Washington county does not need anymore data centers. They eat up useful farm land, dry up aquifers. There is a very short boom in employment but once they are built the number of jobs does not come anywhere near the amount it cost to build and the tax breaks these companies receive does not equate to what they give back to the community. Our infrastructure gets heavily used and these companies do not have to pay the bill for road repairs, our tax dollars do.
