

Submitter: Bryan Whitmore Parks

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SJR201

To the members of the Senate Committee on Finance and Revenue,  
As a resident of Oregon, living in the town of Sweet Home I am writing to you in opposition to your proposed amendment which would allow you to steal a portion of the surplus revenue that by prior legislation you are required to return to the citizens of Oregon. We will no longer tolerate the actions you've been taking to circumvent the will of we the people you swore to represent. Most recently in every way both you as Democratic officials along with our Governor have treated the citizens as financial slaves to your every (corrupt) whim as you seek to seize and maintain the power of your positions while you empty our wallets through legislation. Rather than fiscal responsibility it is obvious you have chosen to use our social services meant for the well being of our citizens, to ignore our voices, and have used our resources to import illegals into our state as your "replacement voters". You have done this by elevating those same illegals above the status and well being of American citizens living in this state and have created disastrous economic impacts as a result of creating "sanctuary cities" which is not a legal term or status that has been a burden to our social services, our medical costs, created a housing shortage crisis, and held down any meaningful wage increases or potential. What did you think would happen to us economically by the implementation of these policies, your rogue tax policies that have only served to drive out long standing businesses from our communities? It's time to stop the insanity of this direction and course you have set this state on. We demand you change course immediately from this day forward while you remain in office although, if you had any moral conciseness left in your body you should all immediately retire from your positions of office and, perhaps for the betterment of the state. move elsewhere. I for one make a vow before you this day that I will work through every public legal channel using my voice as a citizen of both this state and as an American citizen to see that you never hold public office again. Enough is ENOUGH!

More than Sincerely,  
Bryan Whitmore-Parks
