I moved to Oregon over 50 years ago and have been here the bulk of the years since. At no time in those 50+ years have I seen as many fully loaded log trucks careening down our country roads and highways as I have in the past few weeks and months. I customarily see several of these loaded log trucks pass me now whenever I just drive a few miles to the next town over. It's especially disgusting knowing that much of our precious Doug Fir cargo is being shipped overseas to China and elsewhere. Every Oregon senator and representative should be against this bill. Those who are not are nothing more than latter day Benedict Arnolds
