

Submitter: April Allen

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB4105

Dear Co-Chairs Helm and Owens, Vice Chair McDonald, and Members of the
Committee,

I urge you to oppose this bill. Instead, I encourage this committee to focus on
measures that would increase carbon storage on our state forests and safeguard
public state forests and waterways for current and future generations.

This timber industry bill prioritizes logging over all other forest values on state
forests. It undermines the state forest Habitat Conservation Plan and would lead to
more clearcuts, more industry lawsuits, less habitat for fish and wildlife, and less
carbon storage on state public forests.

The bill is unnecessary. The Department of Forestry already has processes in place
to establish timber harvest goals and regularly meets or exceeds those goals, often
at the expense of water quality, imperiled species, and carbon storage.

The bill is expensive. It would require costly rule making and lead to non-stop
litigation the state would have to defend against at taxpayer expense. The bill creates
a new, special right for the timber industry to sue the Department of Forestry to force
more logging on state forests. The state can't afford unneeded legislation with an
enormous fiscal impact.

Please don't let this bill pass out of committee.

I oppose House Bill 4105. I hope you will, too.

Thank you very much for reading my plea for help in this matter.

Very Sincerely,

April Allen
