I strongly oppose SB1574. The primary election can involve races and measures that are final not just choosing candidates for the general election in November. The same reason a 17 year old cannot vote in the general election is the reason they should not in the primary. I find this bill to be quite disingenuous as it seeks to include 17 year olds who are not likely to be informed on measures or candidates. This bill is a bad idea. Please vote NO on SB1574.
