Stop, Stop Stop The data centers in Farmland , in Hillsboro, Oregon, I have friends that live out there, and this is our livelihood, many of them in jeopardy of losing their property livelihoods, they have lived there for years and decades to disrupt their life like this is it's so rude, , it's ignorant to turn a deaf ear to it!!! My best friend, has shed many tears over this , and many people feel the same sediment! You're not even considering the wildlife that lives out there!! please put your ignorance aside. Please put your ignorance aside and think about how many people this is affecting and their liveliness.??????
