

Submitter: Brad Petersen

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB1586

As a lifelong Oregonian and current Washington Co resident I oppose this measure. We as a public must stop subsidizing private corporations with tax incentives for projects that harm our local environments, communities, utility infrastructure and economies. This bill is yet another attempt at previously failed efforts to rezone previously settled Rural Reserve land when the 2014 Grand Bargain provided ample land for industrial use. Taxpayers are not responsible for the failed planning, inefficient use, and speculative risks of large corporations. The current electronics industry bubble will collapse before any of the claimed benefits from this bill will be realized aside from the enrichment of corporations and landowners.
