SB1574

Adolescents below the age of 18 should not be voting in any state election. They typically don't have the same "skin in the game" as older adult voters who pay income and/or property taxes so they lack awareness of the long-term impact voting has on their community. Even 18 year olds may lack that awareness. I'm not advocating for raising the voting age. But I am certainly opposed to lowering it, even for primary elections.
