On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB1586

Oregon does not need any more data centers. Look at what has occurred in The Dalles: poisoned wells, increased cancer rates, increased miscarriages and fertility issues, and now water scarcity. If you google how many jobs do data centers create, the answer long term is dozens. Not thousands or even hundreds, dozens. The risk to our citizens health, possible environmental impacts and potential utility rate hikes are simply NOT worth the reward here.
