On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB1586

I am absolutely not in support of data centers and the effects they have on our communities and environment. I do not wish to see the continued expansion of AI being supported here (especially considering the serious lack of regulation thus far), and do not believe this will bring jobs or economic benefits to our community. If anything taxpayers are at risk for footing the bill, and the environmental and health concerns associated with these centers are staggering.
