Committee: Senate Committee On Finance and Revenue
Measure, Appointment or Topic: SB1586

According to the bill title, this bill is about semiconductor research, but we all know that that is a smokescreen. This is really about taking valuable farm land to enrich huge corporations, plus giving them tax breaks. Don't give more tax breaks to rich people and rich corporations. We are already losing tax revenue because the federal government is denying us our fair share; we should not reduce the tax money we bring in.
