

Submitter: Carol Hanchett

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB1586

As a Hillsboro resident, I strongly oppose building data centers in our communities. This impacts negatively impacts pollution available to our community and contributes to pollution in our water. Our water facilities are not able to meet the demands of such facilities. Additionally the lack of jobs and financial responsibilities for corporations in paying appropriate taxes reduces the possibilities our communities growing. We need companies that give back to our community by providing jobs and pay appropriate taxes that can fund community aids.
