Measure, Appointment or Topic: SB1586

SB1586 is a wolf in sheep's clothing. It will destroy some of the best farm land in the world in pursuit of questionable economic benefits. Why is this a matter for the State legislature rather than the regular land use process? What is the urgency of passing it in a short session with minimal opportunity for public engagement? With massive layoffs in the tech sector in Washington County, we can see that the lack of developable land is not the problem. I strongly urge a NO vote.
