Oregon has a spending problem not a revenue problem. I know I know blah blah blah heard it a million times, but common sense and insults roll off a grubby, money grabbing politician's back like water off of a ducks back.

Portland Oregon used to be a destination for people and business. You've destroyed that. And this bill continues Oregon down the doom loop.

You can't name an example around America or the world where stealing more hard working people's money improves life.

I can wait for that example if you have found one.

But until then stop the theft.
