Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4136

I strongly oppose HB4136! Oregon has a fiscal mismanagement problem and stealing our tax deductions isn't going to solve this State's issues. This will be yet another entity with no accountability or oversight. The State has already thrown millions at the housing crisis and we have more homeless than ever. We must fundamentally change course. Lower the tax burden on families and businesses to encourage people to stay or migrate TO the state rather than FLEEING the state. Reject this bill!
