

Submitter: Lauren Randolph

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB4136

Oregon is holds the position of the #1 taxed state in the nation!!!! With the legislature attempting to remove tax breaks afforded to Oregon citizens by President Trump's BBB law, Oregonians need every tax break they can get. This state is already the worst state for retirees, forcing many to relocate. This costs the state even more tax base loss. Why are you trying so hard to chase citizens out of this great state?

I oppose this legislation and you should vote against removing removing the mortgage interest deduction for 2nd homes.
