Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SJR201

when Oregon became a state in 1859, they made an agreement with the Feds that one of the things agreed to was fund education, with money made from logging. HA! HA! Fat chance that happens anymore, you would rather burn down forest lands than log and pay to put the fires out. Where are we now? Kids can't read, write, add or subtract. They are learning fake history. You now to want to keep the money due back to the people and waste it on stupid ideas that don't work. WE have to live on a budget, if not you can't survive. Past time you start managing your money or get out of office so someone who can can take your PLACE! If you have people that can't do a budget, fire them. If YOU can't live withen your state budget I'm going to fire YOU!
