

Submitter: Esteban Acosta

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SJR201

I oppose this bill, not because I devalue education, I oppose it because we cannot keep assuming that money is the solution to all of the governments short comings.

If you truly want to make a difference in education on Oregon take testimony from educators, both classroom teachers and building administrators on what they see as the actual issues that plague our states education system.

There is a host of solutions that fit within the current budget of the state and if YOU truly cared about the education of our states children, you would be working with educators to resolve them, NOT treating money like a miracle cure to systemic issues.
