The manner in which the current Oregon Administration is burning through The People's money should raise alarms. Despite increased funding in all aspects of State Management, there has been downward spiral of positive results. This, and any future Administration, has to live within it's means, with fiscal responsibility being the both, fully transparent and approved by The People!

We, The People, are not and will not be your personal piggy bank that you can squeeze dry. You must adhere to the laws that have previously been established, not making up new rules to your game as you go. This includes following Federal Law, which has no provision for Sanctuary State or City!
