Were you elected to spend more money? Is this how you would vote if this was your own personal money you were spending? We have wasted so much money on these things. I don't think that throwing more money at it will solve the problems. How many of you will stand up with integrity and use your positions to do what is best for the long-term good of people that you serve. We need our leaders to lead by example in making hard decisions to get our state into a financially healthy place with the money you already have, instead of taking more money out of the pockets of the people who are trying to provide for themselves and their families. The state does not need more money; it needs to prove it can responsibly use the money it currently has.
