Our elected officials are doing every they can to destroy the working class in this state. At every turn they are looking for more ways to tax us, when they should be better stewards of the money that is already budgeted for schools and fires.

Everyone of us are having to find ways to cut expenses and it shouldn't be any different for the state. Start treating it like it's your money you're spending then acting like there is a money tree in the back yard. Leave the surplus money alone!
