

Submitter: Ayla Hofler

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB1586

I only had 2 minutes with you on the 18th so I will finish with saying that you can not determine the highest and best use/value of something by using only monetary criteria and context. Something's are considered priceless...like our class I and II soils, no farms, no food. This seem strange to say to a finance committee, and yet maybe you might be more likely to understand this alternative. We need sustainable farm production here in District 4 of Washington County. We need to develop economic development in our rural settings not more concrete, pavement and minimal job creation. Ayla
