

Submitter:	B Tobias
On Behalf Of:	COMMON SENSE BILL
Committee:	House Committee On Health Care
Measure, Appointment or Topic:	SB1504

Finally, a good bipartisan bill, which is supportive and helpful to staff in schools who need to be able to offer a simplified and easy way to administer epinephrine for allergic reactions. Needles are scary for some folks and might cause dangerous hesitation in administration or inappropriate administration of the older "epi pen".
