This has already been voted on to come back to the people that shouldn't have to be something. We vote again on the schools and the wildfire desperately need money, but you are not a government to be trusted to make sure that that happens with how you've already destroyed a small businesses we need our money to keep ourselves alive. Our kids fed our cars with gas. We do not have extra money in our homes. We desperately need this please this kicker money has already been invested illegally in private investments and needs to be pulled out from all private investing by our state and given back to the people again sorry we do not trust this is actually going to be used for the schools and wildfires. Just put it back in our hands like we've already voted for the surplus money to do. Thank you for your your help in supporting your constituents.
