

Submitter: Timothy LeMaster

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SJR201

The legislature needs to get its head out of its butt and start exercising some fiscal discipline.

Budgets and spending across the board have been going up for years and years. Why in the hell can't you cut it back to in the neighborhood of pre-covid spending and get rid of all the junk that you've added on since then. There are options and ways to get this done it's all about priorities it's not the moneys.

Making this even more ridiculous at the same time you are doing everything you can take every dollar from businesses and people that you possibly can the governor is somehow trying to bring businesses to oregon. This isn't rocket science people. It's expensive to operate in Oregon you're taking more tax money there's no reason for businesses to come here people can leave and get a hell of a lot better quality of life and keep their own money when it comes to the government taxation going on.

It's not the revenue it's your spending fix that first.
