As a resident of Salem and a father to 3 young boys, taking away a kicker from the people can be critical in many ways. For the majority of people, every dollar counts in order to up keep a family. Whether it's for food, cleaning items, and broken necessities, this kicker can help many lives drastically. On top of that, for those who go out every day to provide for families and pay taxes every year, deserve any incentive that is given to them. There are many families taking their children out of the public school system, so why not just take kickers from families that keep their children in public school system. This is just my opinion and I know many more people have other suggestions on why taking this away is just unjust.
