

Submitter: Catherine Wilson  
On Behalf Of:  
Committee: House Committee On Rules  
Measure, Appointment or Topic: SB1516

As your constituent, I believe mass surveillance companies shouldn't be making millions in tax dollars from gathering data that is used by ICE and other government agencies to target immigrants, protestors, people accessing abortion care, and other vulnerable communities.

Please do not trust the self-interested lobbying of surveillance corporations! Instead strengthen SB 1516A by putting in place the strongest possible protections for Oregonians against the misuse of Automatic License Plate Reader (ALPR) data.

1. Oregon should join states like Maine and Virginia by retaining ALPR data for an absolute maximum of 21 days.
2. Oregon must require ALPR vendors to use end-to-end encryption and must also define end-to-end encryption in law.
3. Oregon must define in law when it is appropriate to use ALPR cameras, focusing on felonies and the most serious offenses.

Thank you for your time and service.
