Dear Chair Nathanson, Vice Chair Reschke, and Members of the Committee:

My name is Adam Richardson, and I am a federally licensed Enrolled Agent serving taxpayers nationwide, including clients in Oregon. I respectfully urge your support for SB 1510-A.

Enrolled Agents are licensed and regulated by the IRS under Circular 230. We are subject to comprehensive federal testing, background checks, continuing education requirements, and oversight by the IRS Office of Professional Responsibility.

Those of us licensed to practice before the IRS have already met rigorous national standards that meet — and in many respects exceed — state competency requirements. Oregon’s additional examination requirement creates regulatory duplication without increasing consumer protection.

In my practice, I routinely represent taxpayers in complex federal and state matters across multiple jurisdictions. The additional Oregon testing requirement limits the ability of experienced federally licensed professionals to serve Oregon residents and reduces access to qualified representation.

SB 1510A maintains oversight, protects consumers, and removes unnecessary duplication — all without fiscal impact to the state. I respectfully ask for your support.

Thank you for your time and service.

Sincerely,
