

Submitter: B Tobias
On Behalf Of: OHA overreach and STUDY IS MONEY
Committee: House Committee On Rules
Measure, Appointment or Topic: SB1528

This bill is totally unnecessary as it does NOTHING to drop drug prices or create changes. It allows OHA to have more data on drug manufacturers, which will get passed along to purchasers, as it costs drug manufacturers staff payroll to create the data for OHA.

The BIGGER ISSUE is WHY does OHA want to stick their head into this in the first place? It is unnecessary state government overreach and our Federal Government is doing a great job at bringing drug costs down without the help of untrustworthy, unreliable and deceptive OHA, who won't even allow audits of their work! They just want MONEY TO DO ANOTHER USELESS STUDY

If OHA can't be trusted, sure not going to give them ok to get their hands into a pot they don't need to be in
