

Submitter: Rebecca Luening

On Behalf Of:

Committee: Joint Committee On Ways and Means Subcommittee On
Capital Construction

Measure, Appointment or SB1601
Topic:

I am writing to state my strong opposition to the proposed legislation in SB 1601 with -3 amendment, which would make drastic cuts to rail projects that have been planned for a long time and are already environmentally approved! Rail is the wave of the future, and now is the time to invest in that future. It makes absolutely no sense to continue to cut transportation alternatives and access to people who cannot drive in order to prop up a broken highway system.
