

Submitter: Ciera Keith  
On Behalf Of: Douglas County Fairgrounds Complex  
Committee: Joint Committee On Ways and Means Subcommittee On  
Capital Construction  
Measure, Appointment or Topic: SB1601

Removal of the \$1.53 million cap on the 1% of lottery revenue funds that is allocated to the County Fairs Account would make a huge impact on the operations of many fairgrounds in our state. Specifically for Douglas County Fairgrounds it would help aid in the much need infrastructure maintenance that keeps us operating as a premier location to host events for our community that include many non-profit fundraisers. It also would help with keeping us as an emergency evacuation location for Douglas County if needed. With the additional funds we could continue to work on repairs of our aging facilities as well as do upgrades to help in reducing energy consumption through water line repairs, lighting upgrades and many other projects. We ask you to consider this amendment and help to continue to make County Fairs sustainable for many generations to come. Thank you.
