

Tillamook COUNTY FAIR

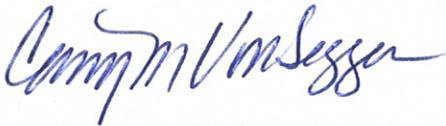

I am writing you today to show our support for SB 1601. The increase in funding by removing the cap on 1% lottery funding for all 36 county fairs/fairgrounds will have a tremendous and lasting effect.

This is something we do not take lightly, years of work trying to maintain facilities, offer safe and usable space for our communities to gather, shelter and create can now be addressed and upgraded.

We are also an economic driver in our community, offering opportunities for schools, youth programs, nonprofit organizations, service organizations and businesses to expand their revenue streams to a broader market. Local economy is positively impacted when we can generate increased year round facility use.

I am grateful for this opportunity to continue working on meaningful upgrades, revitalizing these vital hubs and igniting positive growth at the Tillamook County Fairgrounds.

Sincerely,

Camy M VonSeggern
Tillamook Fairgrounds Director
