

Submitter: Timothy Walsh

On Behalf Of:

Committee: Joint Committee On Ways and Means Subcommittee On
Capital Construction

Measure, Appointment or Topic: SB1601

My name is Timothy Walsh, and I am a resident of Multnomah County. I vehemently oppose the proposed -3 amendment to SB 1601. Cutting Safe Routes to School, Community Paths, ConnectOregon, Amtrak Cascades, and seismic resilience projects to prop up a broken highway funding system is insane. Please do not pass this amendment. Keep our transit, rail, bus, bicycle, and pedestrian funding intact. If you're looking for somewhere to cut, there's around \$14 billion worth of megaprojects in North Portland that you might want to examine.
