

Submitter: David McFadden

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SCR205

It appears obvious that this is an ill-conceived and poorly written amendment to a Bill that together are fraught with implementation and legal questions & issues that are a long way from being solved, both legally & financially. At the present time it is not in Oregon's best interest and should be put aside. Thank you for your time and wise considerations.
