EA's, CPA's and attorneys are enrolled to practice before the IRS. EA's are the only ones subjected to Oregon regulations. Yet we are the only ones who are tax only experts, who have passed the most extensive tax only testing. We are America's tax experts. We do only tax. Yet attorneys and CPA's who are not tested on tax alone are not subject to Oregon board requirements! It makes sense to have America's tax experts be above board requirements, above attorneys and CPA's. We are the tax experts. Either release us or hold attorneys and CPA s to the same standards. We specialize and have passed the most extensive tax testing in the USA. It is time we are recognized and allowed to do our work.
