Committee: Joint Committee On Ways and Means Subcommittee On  
Capital Construction  
Measure, Appointment or Topic: SB1601

30% of Oregonians don't drive.

I oppose the Transportation amendments that only fund highways. Do not cut, divert or reassign funding for the infrastructure, programs, services for 30% of state residents!—nondriving youth and children, people with disabilities, elderly, very low income people, and your most eco-conscious constituents.

Gov. Kotek's climate change recovery goals are at stake. A major cultural shift to healthy, energy-conserving modes of transportation is required for our wellbeing and our future. It is urgent that we roll back the primacy of fossil fuel-consuming vehicles. Vote no!
