

Submitter: Julie Daniel
On Behalf Of: The 30 percent of people who do not drive
Committee: Joint Committee On Ways and Means Subcommittee On
Capital Construction
Measure, Appointment or Topic: SB1601

I strongly oppose balancing the budget by taking previously approved safety and transportation funds from all the people who do not, or cannot drive. Children, seniors, the disabled, people too financially constrained to drive. I am a senior who drives, walks, bikes and uses the bus. I will happily pay for the privilege of driving in order to make sure it is safe and feasible for me, and others like me, to bike, walk and bus.
